

Electric Current Symbols [\[Go to Website \]](#)

 Positive polarity	 Negative polarity	 Direct current, DC	 Direct current, DC
 Direct current, DC	 Alternate current, AC Low frequency AC	 Mixed current Rectified current	 Mixed current Rectified current
 Universal equipment Operates with direct current and alternating current indifferently DC / AC	 Medium frequency	 High frequency	 Converting DC to DC DC / DC Converter
 DC / AC Converter DC / AC - Power inverter inverter / undulator	 AC / AC Converter	 AC / DC Converter Rectifier	 50 Hz Alternate current - AC e.g. frequency: 50Hz
 Neutral	 3 50 Hz Three-phase current at a frequency of 50Hz	 R / S / T Phases R/S/T or L1/L2/L3
