

Electrical Test & Control Equipment Symbols [\[Go to Website \]](#)

 <p>Measuring instrument meter Generic symbol</p>	 <p>Measuring instrument meter</p>	 <p>Voltmeter</p>	 <p>Ammeter</p>
 <p>Differential voltmeter</p>	 <p>Ammeter with center at zero</p>	 <p>Wattmeter</p>	 <p>Reactive current ammeter</p>
 <p>Wattmeter indicating terminal voltage and current</p>	 <p>Ohmmeter</p>	 <p>Indicator of maximum electricity demand</p>	 <p>Frequency meter</p>
 <p>Phase meter Wavemeter</p>	 <p>Vumeter</p>	 <p>Wavemeter</p>	 <p>Thermometer</p>
 <p>Phasemeter</p>	 <p>Pyrometer</p>	 <p>Tachometer</p>	 <p>Varmeter</p>
 <p>Tachometer</p>	 <p>Gas meter</p>	 <p>Galvanometer</p>	 <p>Galvanometer</p>

All Electrical & Electronic Symbols in <https://www.electrical-symbols.com>

Electrical Test & Control Equipment Symbols [[Go to Website](https://www.electrical-symbols.com)]

 Oscilloscope Oscillograph	 Synchroscope	 Oscilloscope Oscillograph	 Salinometer
 Oscilloscope with cathode ray tube Shown with electrostatic deflection plates	 Radiation meter Geiger counter	 Pulse generator	 Phase comparator
 Waveform generator	 Probe for measurement and test	 Probe for measurement and test	 TP Test point
 Measuring instrument with permanent magnet moving coil	 Measuring instrument moving coil with rectifier incorporated	 Ionization Chamber	 Cavity resonator
 Scintillation counter	 Control panel Generic symbol	 Telemetry receiver	 Telemetry transmitter
 Iron shielding device	 Electrodynamic instrument	 Electrodynamic instrument with iron armor	 Mobile coil

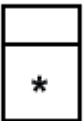

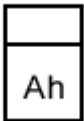

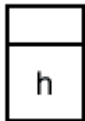

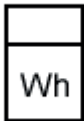

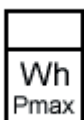

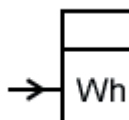

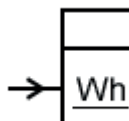

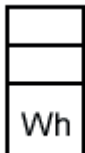

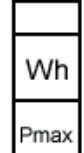

All Electrical & Electronic Symbols in <https://www.electrical-symbols.com>

Electrical Test & Control Equipment Symbols [[Go to Website](#)]

 <p>Mobile coil with built-in rectifier</p>	 <p>Thermoluminescent dosimeter</p>	 <p>Quotients meter</p>	 <p>Mobile electromagnetic magnet instrument</p>
 <p>Mobile electromagnetic magnet instrument</p>	 <p>Mobile electromagnetic iron device</p>	 <p>Mobile electromagnetic iron device</p>	 <p>Electronic device in measuring circuit</p>
 <p>Electronic device in auxiliary circuit</p>			

All Electrical & Electronic Symbols in <https://www.electrical-symbols.com>

Symbols of Counters and Electrical Integrators [[Go to Website](#)]

 <p>Counter instrument The asterisk is replaced by the letter or symbol for the quantity count</p>	 <p>Ampere hours meter Ampere meter</p>	 <p>Hourmeter</p>	 <p>Watt hour meter Energy meter</p>
 <p>Volt-amperes reactive hours</p>	 <p>Energy meter with maximum demand indicator</p>	 <p>Energy meter with transmitter</p>	 <p>Energy meter with remote control</p>
 <p>Counter of excess energy</p>	 <p>Energy meter, has the energy flowing toward the bar</p>	 <p>Energy meter, has the energy flowing from the bar</p>	 <p>Energy meter with remote control and printing</p>
 <p>Energy meter in one direction</p>	 <p>Energy meter, has energy in both directions</p>	 <p>Energy meter with dual-rate</p>	 <p>Energy meter with recording of maximum demand</p>
 <p>Energy meter with triple rate</p>			

Electrical Symbols of Registrars and Recorders [[Go to Website](#)]

5/5

Recording instrument
The asterisk is replaced
by the letter or symbol of
the magnitude recorded

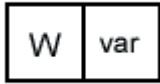

Ammeter recorder

Wattmeter recorder

Oscillograph recorder

Combined recorder
with Wattmeter and
Volt-amperes counter
reactives
